### SAFe Release Train Engineer (RTE) certification – why?

The [SAFe Release Train Engineer \(RTE\)](#) credential is the only certification designed to highlight and develop the skills you need to become a successful [Release Train Engineer \(RTE\)](#). This 3-day [SAFe 4.6 Release Train Engineer \(RTE\)](#) training - concluded with the official certification exam of Scaled Agile - assures that credential holders have the knowledge to launch and guide Agile Release Trains (ARTs) in organizations of all sizes and levels of complexity.

### SAFe Release Train Engineer (RTE) – what will you learn?

In this 3-day [SAFe Release Train Engineer \(RTE\)](#) training you will gain an in-depth understanding of the role and responsibilities of a [Release Train Engineer \(RTE\)](#) in the SAFe enterprise. You will learn how to facilitate and enable end-to-end delivery through Agile Release Trains (ARTs) and value streams. You will also learn how to build a high-performing Agile Release Train (ART) by becoming a servant leader and coach, and how to plan and execute a Program Increment (PI) planning event, the primary enabler of alignment throughout all levels of a SAFe organization.

# Release Train Engineer (RTE) – your new abilities

After this 3-day SAFe [Release Train Engineer \(RTE\)](#) training you will be able to:

- Effectively perform the role of a Release Train Engineer (RTE)
- Apply Lean-Agile knowledge and tools to execute and release value through Agile Release Trains (ARTs) and value streaming
- Support value delivery in large and complex value streams
- Facilitate activities that foster relentless improvement in the Agile Release Trains (ARTs)
- Build a high-performing Agile Release Train (ART) by becoming a servant leader and coach
- Continue your learning journey and develop an Agile Release Train (ART) action plan

## SAFe Release Train Engineer (RTE) – for who?

Is your organization implementing SAFe? Are you facing the challenge to setup and support an Agile Release Train (ART)? Then this is the training and certification for you. The [Release Train Engineer \(RTE\)](#) training targets project and program managers who want to fulfill the RTE role in agile organizations as well as Agile change agents and seasoned Scrum Masters who wish to progress in their career as a [Release Train Engineer \(RTE\)](#). This training is also meant for Value Stream Engineers (VSEs), SAFe Program Consultants (SPCs), Solution Train Engineers (STEs); SAFe Agilists and/or Agile coaches.
