## Materials Science Conference

---

**Date :** Mar 18, 2019 - 07:00 PM

**Event URL :** <http://www.nyeeventslist.com/events/materials-science-conference-mar-2019>

**Organizer :** Meetings International

**Venue :**

**Location :** Hyatt Regency Osaka, 1-13-11 Nanko-Kita, Suminoe-Ku  
Osaka, Osaka, Japan, ZIP: 559-0034  
Phone: 31080483

---

We cordially invite you to participate in the [Materials Science Conference](#), which will take place at Osaka, Japan during March 18-19, 2018. We shall be pleased to welcome you there!

The field of [materials science](#) has changed rapidly in the last decades and new methods help scientists all over the world to master the challenges of the 21st century. Socioeconomic changes cause also changes in materials research. This [Materials Science Conference](#) is providing a platform to scientists to communicate regarding the investigation on the structure and properties of all engineering materials. This will also provide an international platform to companies and institutions to present their services, products, innovations and research results. Materials Science 2019 focuses on research and application of advanced materials via interdisciplinary exchanges among materials scientists and engineers.

This event focuses on various aspects of material science research such as [electronic](#), electrochemical, ionic, magnetic, [optical](#), and biosensing properties of solid state materials in bulk, thin film and particulate forms along with the synthesis, processing, characterization, structure, physical properties and computational aspects of nano-crystalline, crystalline, amorphous and glassy forms of [ceramics](#), semiconductors, layered insertion compounds, low-dimensional compounds and systems, fast-ion conductors, [polymers](#) and dielectrics.

Why to attend???

Materials Science Conference is the biggest conference dedicated to Materials Science and Engineering professionals providing a premier technical forum for reporting and learning about the latest new generation technologies developed during the course of time along with discussing their applications. Events include hot topics presentations from all over the world and [www.nyeeventslist.com](http://www.nyeeventslist.com)

professional networking with industries, leading working groups and panels. Meet your objective business sector with individuals from and around the globe concentrated on finding out about Materials science and Engineering, this is the best chance to achieve the biggest collection of members from everywhere throughout the World. Conduct shows, disperse data, meet with current, make a sprinkle with another product offering, and get name acknowledgment at this occasion. Widely acclaimed speakers, the latest methods, strategies, and the most up to date overhauls in Polymer science and Engineering are signs of this meeting.

Target Audience:

- Scientists
- Professors
- Research Scholars and students
- Nanotechnology Companies
- Nanotechnology Associations
- Advanced Materials and Nanotechnology Engineers
- Materials Scientists/Research Professors
- Physicists/Chemists
- Junior/Senior research fellows of Materials Science/ Nanotechnology/ Polymer Science
- Biotechnology/ Biomaterials professionals
- Materials Science Students
- Directors of chemical companies
- Materials Engineers
- Members of different materials science associations
- Polymer companies

We invite you to join us at Osaka, Japan to attend the world class materials science event!!!!

For detailed sessions, please visit: <http://www.meetingsint.com/conferences/materialscience>  
Submit your abstract online at: <http://www.meetingsint.com/conferences/materialscience/abstract-submission>

Register online: <http://www.meetingsint.com/conferences/materialscience/registration>

**Event Categories** : EDUCATION CONFERENCES, SCIENCE AND TECHNOLOGY CONFERENCES, Technology ,
